MEMORANDUM FOR: Assistant to the DD/I (Planning)

SUBJECT: Personnel Which Might be Considered
for Guard Mount

1. In response to my request, [] has indicated on the attached list the names of people who could be most useful to the Military-Scientific Division in a Guard Mount exercise.

25X1

2. All of the personnel named do not come from the DD/I area, as we've included some names from NSA and AEC. These may be useful later when this bridge is reached.

3. We've had excellent working relations with the people named and found them to be most useful to and compatible with our operations. The information forwarded for your retention and reference before Guard Mount or its equivalent staffing patterns are decided.
